

## Sony Interactive Entertainment PlayStation | Gameplay Controls Programmer

Thanks for submitting your availability!  
We've received the following:

- Mon, Feb 25th 12:00pm — 10:00pm
- Wed, Feb 27th 12:00pm — 10:00pm
- Fri, Mar 1st 12:00pm — 10:00pm

Additional Notes:

I've picked the starting times such that I would be prepared to start my interview at those times.

What is your legal name, as it appears on your I.D.?

- Given Name: Shantanu Shripad (I enter this as my First Name for legal documents in the USA)  
Surname: Mane

What is your address for NDA preparation?

- 350 S 600 E, Apt 121,  
Salt Lake City, UT - 84102

What is your current location?

- Salt Lake City, Utah, USA

What is your airport of origin?

- Salt Lake City International Airport

Any time constraints for flights?

- I would like to arrive there in Santa Monica on the day before my interview. So for the flight from SLC to LA, if it is on Sunday I can reach the SLC airport at 12pm (noon) and if it is on Tuesday or Thursday, I can reach the SLC airport earliest at 5:30pm.

For the flight returning home from LA to SLC, any time within reason after my interview will be fine as I plan to leave in the evening or night of that day after the interview is fully done.

Since this is a day trip, will you be comfortable taking taxis? I can also reserve a rental car for you if that's what you prefer. Please note that we do not pay for a rental car upfront, but reimburse you post interview.

- Yes, I will be comfortable taking taxis.

Any special dietary considerations?

- Anything except beef is fine.

What immigration support may you require?

- No immigration support is required at this time. I am an international student here on an F-1 visa and can work on OPT for a maximum of 3 years once I graduate in May 2019. After that period I would require an H1-B visa to work in the USA.

While we don't ask candidates for current or historical salary information we would like to know what your base salary compensation expectations are for this position?

- I do not have any set salary expectations for the position. For me, it is more important to be a part of your team at Santa Monica Studio. It is the studio where I want to be and it is my goal. I know I'm not giving you a

number here but as long as the salary is sufficient to help me live there in order to be at the studio I would be more than happy.

What is your preferred start date?

- May 6 2019, which is after my graduation in my Master's of Entertainment Arts & Engineering - Game Engineering degree.

Do you have any other pending offers or potential interviews?

- No, I do not have any other pending offers or interviews.

Any other considerations that may impact your availability to interview or start work?

- The only potential consideration for my availability to start work might be a delay in receiving the Employment Authorization Document (EAD) which I will require to start working on OPT after my graduation. I've begun the process to acquire it and am requesting May 6 2019 as my employment authorization start date. There aren't really any considerations in terms of my availability to interview.

Do let me know if there is anything else you need from me in scheduling the interview or otherwise. Thank you! :)
