

# Treyarch Engineering Internship 2019

---

---

Thanks for your interest in Treyarch's internship program!

The team at Treyarch wants to know you better. To help us, we kindly ask you to make a 2 - 3 minute video in which you will have a chance to sell yourself to us. Think of it as your sales pitch to the Treyarch's team.

Here are some reference questions to help you get started:

1. Why are you interested in video game development?
2. What do you do outside of class? What are your hobbies?
3. What do you think makes a good engineer?
4. What makes you unique compared to other candidates?
5. What do you think makes Call of Duty successful? What would you change or improve?

You don't have to answer all, but these are examples of things we're generally interested in hearing about.

Please use a MPEG-4, WMV, or H.264 format for your video.

Please rank these items in this document in the order they interest you (1 = most desirable to work on, 9 = least).

- \_3\_ Artificial Intelligence
- \_2\_ Graphics
- \_1\_ Gameplay
- \_5\_ Physics
- \_4\_ Animation
- \_7\_ Tools
- \_9\_ Online & Networking
- \_8\_ Audio
- \_6\_ UI
